

## Passionate AI Developer & FullStack Developer

### Summary

---

Passionate AI and Full-Stack Developer with solid skills in Python for backend development and React with Tailwind CSS for front-end. Built real-world web and AI projects and hold a basic foundation in machine learning. Driven to deliver user-friendly, AI-powered solutions and real-world projects that solve real problems.

### EXPERIENCE

---

Go2Cod, Remote

2024 - Present

#### CEO & Co-Founder

- As the CEO and Co-Founder of Go2Cod, I am dedicated to empowering aspiring coders through real-world, project-based internships.
- Trained and mentored 700 interns from 25 African countries through virtual internship programs in Web Development, Software Development, UI/UX Design, and AI.
- Visit the Website: [go2cod.com.et](https://go2cod.com.et)

Freelancing, Remote

2024 - Present

#### Full Stack Developer

- Developing personal and collaborative web applications that combine clean UI design with solid backend logic.
- Continuously improving through hands-on practice and real-world project building.
- Learning and applying core concepts of authentication, database management, and API development while building full stack solutions

### EDUCATION

---

Dagmawi Menelik , Addis Ababa 4Killo

2024 - Present]

#### Senior High School

A2SV(African To Silicon Valley), Remote

2025 - Present]

#### Data Structure and Algorithm

### Project

---

#### AI Study Assistant

- Built an AI-powered study assistant that generates notes, quizzes, and flashcards from user-uploaded materials to help students learn smarter and faster. Integrated modern UI with React and Tailwind CSS, and used Python for backend logic and data handling. I also used a Groq API for the AI.

### Skills

---

**Front-End:-** React | Tailwind CSS | HTML | CSS | TypeScript

**Backend:-** Python | FastAPI

**Tools:-** VSCode | Git/Github | Figma | Firebase | Supabase | AI

## ACHIEVEMENT AND AWARDS

---

### 1st Place Winner

- 1st Place Winner in the Addis Teen Code Hackathon by ALX, achieved with my team.

### 3rd Place Winner

- I won a 3rd Place in a online hackathon Tech Titans Hack Fest Built an AI project.

### Best Beginner Project Winner

- Won the Best Beginner Project from a Senior Category in an online Hackathon FutureHacks 7.

### Hackathon Quarter-Finalist

- Me and my team was able to make it to quarter finals in the A2SV AI For impact hackathon. Being in the top 200s from the 600 teams.

### Trained 700 Interns Across 25 Countries

- Led large-scale internship programs in Web Dev, Software Dev, UI/UX & AI..., empowering youth through real-world tech training.

## CERTIFICATION

---

- |   |              |
|---|--------------|
| • <b>Supervised Machine Learning</b>              | Coursera     |
| • <b>Web Development</b>                          | FreeCodeCamp |
| • <b>Python Intermediate</b>                      | Sololearn    |
| • <b>Basics of Data Structures and Algorithms</b> | Simplilearn  |

### CERTIFICATION

- English
- Amharic
- Oromo
